ADDENDUM – Additional financial data

December 2009
Group Financial Performance

Key Points ... looking back

The Group traded through a perfect storm:

- Food:
 - Disinflation / deflation
 - Wholesale volumes negative as customers delayed purchases
 - Gross margins contracted
- General Merchandise sale weak:
 - South African consumers cautious
 - Bank consumer credit scarce
 - Compounded by deflation in this category
- Africa:
 - Belated reaction to global crisis
 - Local sales growth negative
 - Initial currency weakness caused over-pricing of stock in Game
- Currency strengthened relative to 1H in FY09:
 - While still very profitable, Rand trading profits from Africa down by 26%

Key Points ... looking ahead

Internal:

- Great operational performance: costs, employees, stock levels
- Sales growth accelerating since mid-December '09
- Builders Warehouse and Game SA trading well
- New stores and acquisitions
- Gained market share

External:

- Increasing and broad-based signs of economic recovery
- African currencies likely to stabilise / strengthen
- CPI to remain low <6%, suggesting a benign to positive economic outlook

Sales Growth Analysis

	%
Existing stores (comparable growth)	-0.5
New stores & Acquisitions	6.6
Total sales growth	6.1

- Excluding Africa: total and comparable sales growth 7.0% and 1.2% to December 2009
- 34-week sales growth update to 21 February 2010:
 - 6.7% total and 0.4% comparable
 - But excluding Africa: 8.5% total and 2.3% comparable
- Early recovery evident across all Divisions

Gross Profit

	2009	2008
Gross Profit	R4 310m	R4 128m
<i>As % of Sales</i>	17.8%	18.1%

- Food disinflation & commodities deflation – caused lower Food gross margins in Masscash and Makro
- Low General Merchandise product inflation and muted consumer spending – caused lower gross margins in Massdiscounters and Makro as competitors fought for market-share
- Massbuild gross margins steady

Operating Costs

	2009	2008
Operating Costs	R3 194m	R2 932m
<i>As % of Sales</i>	13.2%	12.9%

- Above figures exclude Forex gains / losses and Other Income in both periods
- Total 8.9% increase
- Comparable expenses increase only 2.5%
- Other Operating Costs up only 3.5% from continued focus on discretionary expenses
- Group electricity costs approx R76m for 1H FY10

Employment Costs (51% of total costs)

	2009	2008
Employment Costs	R1 621m	R1 493m
<i>As % of Sales</i>	6.7%	6.6%

- Total 8.6% increase
- Labour scheduling remains a focus area
- Only 1.5% increase in staff (FTEs) despite 36 new and acquired stores
- Includes non-cash IFRS 2 (share-based payments) charges of R79m (2008: R68m)

Occupancy Costs (20% of total costs)

	2009	2008
Occupancy Costs	R 646m	R 554m
<i>As % of Sales</i>	2.7%	2.4%

- Total 16.7% increase
- With 7.3% space increase
- Leases comprise 72% of these costs, and are 13% higher
- Continued large increases in rates & services (+30%)

Depreciation and amortisation (6% of total costs)

	2009	2008
Depreciation	R187m	R171m
<i>As % of Sales</i>	<i>0.8%</i>	<i>0.8%</i>

- Total 9.2% increase
- Expected to continue ahead of sales growth due to new stores and refurbishments

Forex Gains & Losses (unrealised & realised)

	2009	% change
Sales	R 6 114m	0.4%
PBT excl Forex	R434m	-14.5%
<i>PBT margin</i>	<i>7.1%</i>	

- Game SA: good sales growth and profit higher than FY09 1H
- Higher promotional sales mix – negatively affected gross margins
- Excluding new stores, stock levels below December 2008
- New Gauteng RDC opening July 2010 – will cause a new R30m lease-smoothing charge in FY11
- Africa:
 - FY09 saw super-profits: strong local sales & Rand weakness
 - Rand sales declined 25% and local currency sales declined 5%
 - Stronger Rand caused R7m forex loss (2008: R21m gain) in 1H
 - A R128m forex charge in FY09 2H – unlikely to be repeated
 - Repatriation of cash only a problem in one country

Makro

	2009	% change
Sales	R 5 956m	1.5%
PBT	R393m	-10.5%
<i>PBT margin</i>	6.6%	

- Sales typical of the environment – steady Liquor, declining Food, and low General Merchandise
- Disinflation in Food causes wholesale customers to delay purchases
- Some lost export sales to Zimbabwe
- Gross margins pressure due to deflation & competitive intensity
- Stock days improved
- Secured sites for new stores in Gauteng and Cape Town. Good progress on a further two sites

Massbuild

	2009	% change
Sales	R3 190m	8.6%
PBT	R166m	2.6%
<i>PBT margin</i>	<i>5.2%</i>	

- Builders Warehouse positive comparable sales growth. Expect Trade Depot to lag by six months
- Gross margins higher – from less clearance activity and better purchasing
- Great cost control
- Good working capital performance
- Builders Express acquired three ex-Mica stores
- Trade Depot acquired Mocambique-based Kangelá, 13 stores

Masscash

	2009	% change
Sales	R8 894m	13.1%

- Cash and Carry business suffering low food inflation and volumes.
- Great operating performance with costs well controlled.
- New Retail Cash and Carry business growing fast and should comfortably exceed R2bn target this year.
- Deal and new-store pipeline growing.
- Decision on National brand later this year.
- Now have a food business in Mozambique.

Masscash Cont.

Retail

- Number of Stores – 20
- Space – 50,500 m²
- Annualised turnover – R2.5bn
- Average equity held – 55%
- New acquisitions Astor, Sunshine, Top Spot and Kawena
- First new store opened in Jabulani in Feb with 5 more in progress
- Management team being assembled with now 8 Executives and Senior Managers in place

Environment

Environment - Economic SA

- **The end of recession**
 - The 4th quarter real GDP increased by an annualised rate of 3.2% compared to the 3rd quarter 0.9%.

- **Consumer remained under extreme pressure**
 - Real retail sales still negative: -6.6% in November
 - Banks report high levels of non-performing loans
 - Car sales were depressed
 - Bonded residential market metrics still contracting materially

- **CPI just entering the target zone**
 - Food inflation low, assisting the consumer
 - However labour, energy and local taxes putting pressure on CPI
 - Flow through impact of Eskom on all pricing unknown, and the resultant Reserve Bank response material

- **Consumers starting to recover in the past few months**
 - Retail sales growth improving to -3.7% in December
 - Car sales growing at 20% in January 2010
 - Residential property market rose by 3.6% on a m-o-m basis in December; annual house inflation is at 0.2%
 - Improved big ticket performance
 - Increased interest in Home Maintenance

Environment - Economic Africa

- Impact of global crisis certainly evident in our Africa business
- Currencies stabilising at weaker levels
- Currency availability did not worsen, perhaps pointing to continued investment from China
- Comparable local currency sales stabilised by December
- CPI on imported goods in Africa greater than 20%, changing spending patterns significantly
- Africa contribution to Massmart profit materially down

Environment - Competition Commission

- We will be making a submission to the Commission in March in response to their subpoena.
- Four allegations
 1. Market Concentration – rebates, discounts, slotting fees etc
 2. Long Leases with exclusivity clauses
 3. Category Captains
 4. Information Sharing
- No allegations of “prohibitive acts”.
- Investigation under “rule of reason” section.
- Without pre-judging the outcome, we have not found any reportable transgressions in our own internal reviews.

Environment - Competitive Retail

- Retail sales volumes declined 6.6% in November and 3.7 % in December.
- Performance across categories varied.
- *Food*: Deflation in commodities had an impact on volumes and profit, particularly in wholesale, although volumes stabilised by December.
- *Food*: Very aggressive pricing in Retail, as the war for market share and price perception continues, particularly in commodities.
- *General Merchandise*: Performance improving in South Africa in the value segment. Very high response to promotional discounting.
- *Home Improvement*: Builders Warehouse improving all the time, but we are unsure just how much is market and how much is market-share gain.
- *Home Improvement*. Bonded residential building and alterations not improving as evident in Trade Depot trading.
- Overall the food retailers and clothing retailers have out-performed food wholesale and general merchandise retail.

Vision for Growth 2012

Update on Vision for Growth 2012

- Leadership and Transformation
- Growth of the core business
- New stores (expanding footprint)
- New formats and categories
- Acquisitions
- Sustainability

Vision for Growth 2012 - Progress

- A new group of 43 Graduates, 97% PDI, recruited and in training. 70% of prior year appointed or in the process of being appointed.
- Massmart University EDP, MDP, LDP 2010 programs initiated.
- Supply Chain and Private Label now imbedded in core Group processes and philosophy.
- Begun process to put Financial Services into Massbuild.
- 7.3% space opened or acquired. Retail Cash and Carry business growth gaining momentum and ahead of expectations.
- BEE scorecard up to 66% - with 100% of purchases from us qualifying as BEE procurement.

Vision for Growth 2012

- **Trading space planned growth (including store acquisitions):**
 - 2010 – 7.1 % (7.3%)
 - 2011 – 5.0%
 - 2012 – 5.4%

- **New stores – 3 years (including store acquisitions)**

Vision for Growth 2013 A New Focus

Vision for Growth 2013 - A New Focus

- Coming to the end of my first 3 years in “Office”.
- Investment in systems, infrastructure and competency has been material and will continue.
- We have a fantastic portfolio: Human Capital, Property Assets, Culture, Competencies and Brands.
- We have been inwardly focussed for the past 12 months
- With the worst behind us our attentions will be on growing market share through great retail innovation and discipline.
- We have fantastic opportunities in new revised formats and categories.
- Over the next six months we will develop and approve a new Strategic Action Plan for Vision for Growth 2013.
- Communicate in August 2010.

Risks & Prospects

Massmart's 2010 Prospects

- **The worst appears to be behind us**
 - Last 8 weeks comparable sales growth of 3.4%.

Comparable store sales growth - Total Massmart

Massmart's 2010 Prospects

- **The worst appears to be behind us**
 - Last 8 weeks comparable sales growth of 3.4%.
 - Food still under pressure with low inflation and little or no volume growth - this will improve.

- **Second-half likely to see profits grow**
 - Trading has improved in South Africa and we should see gross margins start to recover.
 - Business has costs under control, but this will start to annualise.
 - Space growth in the first half should bear fruit in the second half.
 - Africa should start to recover in the last quarter.
 - Unlikely to experience the same levels of Forex losses as in the second half FY 2009 (-R130m).
 - Product Inflation may start to increase in the last few months of the financial year, as the strong rand annualises.

- **Perhaps even grow profits-before-forex for the full year**

Risks

- **External**

- Expense inflation driven by labour, electricity and “other” taxes.
- Interest rates rising to fight this inflation, effectively dealing the consumer and business a double blow.
- More currency shocks.
- African country illiquidity.
- Entry of a global player.

- **Internal**

- Skills shortage to manage growth.
- Industrial action as we get tough on wage increases.
- Acquisition integration

Conclusion

Conclusion

- Very tough six months – perhaps our toughest ever.
- African business contribution declined from super profit levels last year.
- Good operating performance on all key operating metrics.
- Great counter-cyclical performance in space growth.
- Momentum building in Retail Cash and Carry.
- The consumer seems to have turned.
- All indications are that it should be a good six months.
- We will be turning our attention from protecting the income statement and balance sheet to gaining market share and productivity.
